SPECIFICATION

ENGINE CAPACITY 5935cc

FUEL Petrol

TRANSMISSION Automatic

THE MODEL

The Aston Martin DB7 Vantage Volante

The DB7 is the car that saved Aston Martin. Launched in 1993, it gave Newport Pagnell a modern, attainable grand tourer at a time when the marque's future was far from certain. Ian Callum's lines carried the elegance of the great DB cars into a new era. Furthermore, in 1999 the Vantage replaced the original supercharged six-cylinder with a 5.9-litre V12, the first twelve-cylinder engine in a series-production Aston Martin road car of the modern age. Moreover, the Volante added an electrically operated soft top without diluting the purity of the shape. As a result, an Aston Martin DB7 Vantage Volante for sale offers what many consider the most complete expression of the DB7: open-air grand touring with the sound and character of a V12.

THIS EXAMPLE

About this example

This 2001 Aston Martin DB7 Vantage Volante, offered for private sale, is finished in Pentland Green over a two-tone interior of dark green and parchment leather. It is a quietly British combination that suits the car's character perfectly. Furthermore, it carries ASI Targa Oro certification, the highest recognition awarded by the Automobilclub Storico Italiano to vehicles of proven originality and preservation. As a result, it represents a refined and properly recognised example of the open DB7 in its most desirable form.

Inside, the cabin of this Aston Martin DB7 Vantage Volante pairs parchment seats with dark green upper trim and burr walnut veneers across the dashboard and centre console. The result is a classic British grand touring interior. Under the bonnet sits the 5.9-litre V12, producing 420 hp and paired with the five-speed Touchtronic automatic transmission. Furthermore, it reaches 100 km/h in around five seconds, with the effortless mid-range delivery that suits long journeys. Moreover, with the roof lowered the twelve-cylinder soundtrack becomes part of the experience. As a result, the car delivers exactly what Aston Martin intended: performance carried with composure.
